6 Wings, Side of Fries, Drink10

9 Wings, Side of Fries, Drink12

We're serving up the best wings this side of Buffalo!

The Freshest, Highest Quality Ingredients

We are proud to serve hormone-free, antibiotic free, cage-free Redbird Farms chicken that is NEVER frozen. We think fresh, happy chickens make all the difference. We fry our wings in 100% trans-fat free oil until they are hot and crispy on the outside and juicy and tender on the inside.

We are also proud to serve Colorado grass fed burgers, fresh-cut fries, vegetarian and vegan options and twelve delicious sauces. Nearly all of our menu items are housemade fresh daily.

A Greener Restaurant Model

Fire on the Mountain Denver was the first certified green restaurant in the Highlands. We COMPOST a lot more than we actually throw away (meat, bones, food scraps, paper products...bring it on!), and we use compostable to-go boxes, bags, cups, straws, and portion cups. We RECYCLE! All of our cardboard, glass, plastics and metal get a second chance. We produce RENEWABLE FUEL by turning our fryer oil into biodiesel. Increase the grease!

All to go orders are subject to a 6% charge which covers the cost of our tree-free, compostable to-go containers, cups and cutlery.
Thank you for your support of a planet with less plastic and styrofoam.
